Technical Notes

The Arkansas Labor Market is prepared monthly in conjunction with the U.S. Department of Labor, Bureau of Labor Statistics (BLS). The current month's estimates are preliminary, while previous month's data is subject to revision.

Estimates of nonfarm payroll jobs show the number of jobs by industry and reflect employment by place of work. Hours and earnings estimates are based on payroll and worker-hour data collected for production workers in manufacturing industries.

Industries are classified according to the North American Industry Classification System (NAICS). All estimates are based on a first quarter 2020 benchmark.

Explanation of Terms and Concepts

Monthly Business

Survey of Employers

A monthly sample survey designed to pro-vide industry information on nonfarm payroll jobs. Data are compiled each month from mail surveys and telephone interviews conducted by the Bureau of Labor Statistics in cooperation with Department of Workforce Services. The data are based on establishment records and include all workers, fullor part-time, who re-ceived pay during the payroll period which includes the 12th of the month. Approximately

5,000 Arkansas business establishments are surveyed.

<u>Metropolitan</u>

Statistical Areas

A term applied by the U.S. Office of Management and Budget to counties that have one or more central cities and that meet specified criteria of population density, commuting patterns and social and economic integration.

Current Population

Survey (CPS)

A monthly sample survey of the population 16 years of age and over, designed to provide data on the labor force, the employed and the unemployed. The survey is conducted each month by the Bureau of the Census for BLS. The information is collected by trained interviewers from a sample of about 60,000 households. The data collected are based on the activity reported for the calendar week including the 12th of the month. Approximately 1,000 Arkansas households are represented in the sample survey.

Civilian Labor Force

The sum of all employed and unemployed persons 16 years of age or older. Members of the Armed Forces are excluded.

Employment

An estimate of the number of persons who worked any time for pay or profit or worked 15 hours or more as unpaid workers in a family business during the calendar week which includes the 12th of the month. Also included are those who, although not working, had some job attachment and were not looking for work, and persons involved in labor management disputes.

Unemployment

An estimate of the number of persons who did not have a job, but were available for work and actively seeking work during the calendar week which includes the 12th of the month.

<u>Unemployment</u>

Rate

The number of unemployed as a percentage of the civilian labor force. Unemployment rates are calculated from unrounded data.

Seasonal

<u>Adjustment</u>

A statistical technique applied to monthly data to eliminate changes that normally occur during the year due to seasonal events such as weather, major holidays, schedule shifts, harvest times, and the opening/closing of schools.

November Spotlight Business Employment Dynamics (BED)

Business Employment Dynamics, also known as BED, tracks employment gains and losses at individual business locations. BED statistics are calculated from quarterly reports provided by employers to the Quarterly Census of Employment and Wages (QCEW) Program. Like QCEW data, BED statistics are produced and published on a quarterly basis. At this time, BED data is only available at the national and statewide levels.

Gross Job Gains and Losses by Quarter (Private Sector) State of Arkansas (Seasonally Adjusted)										
	Quarter Ending									
Category	Mar 21	Jun 21	Sep 21	Dec 21	Mar 22*					
	Employment Levels									
Gross job gains	62,875	57,786	68,367	79,698	61,175					
Gross job losses	51,353	57,576	67,097	48,806	55,459					
Net Change	11,522	210	1,270	30,892	5,716					
*Most	*Most recent BED data available is for 1st Quarter 2022									

The information produced from BED statistics includes gross job gains and losses at establishments with changes in employment. These employment changes occur when establishments open/expand or close/ contract. Gross job gains are a combination of jobs created from both openings of new businesses and expansions at existing businesses. Gross job losses are a combination of jobs lost from both existing businesses that close and those that reduce their number of employees. The net change is the difference between gross job gains and gross job losses.

Arkansas' Gross Job Gains vs. Gross Job Losses (Private Sector/Seasonally Adjusted)

State of Arkansas Civilian Labor Force Summary

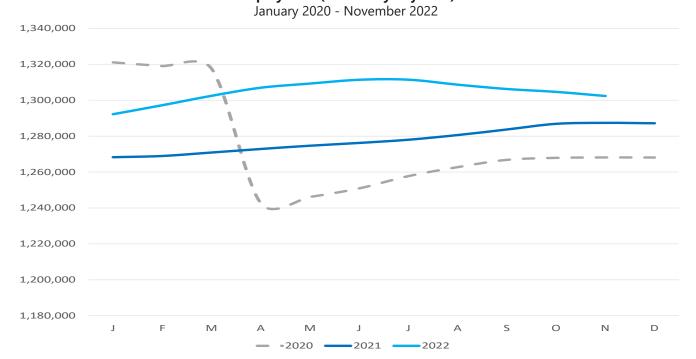

Labor force data, produced by the U.S. Department of Labor, Bureau of Labor Statistics and released by the Arkansas Division of Workforce Services, show Arkansas' seasonally adjusted unemployment rate increased one-tenth of a percentage point, from 3.6 percent in October to 3.7 percent in November. Arkansas' civilian labor force declined by 1,417, a result of 2,292 fewer employed and 875 additional unemployed Arkansans. At 3.7 percent, the United States' jobless rate remained stable between October and November.

BLS Programs Manager Susan Price said, "Arkansas' unemployment rate increased to 3.7 percent in November, as employment and labor force participation rates continued to decline. Compared to November 2021, there are still 14,947 more employed in the State."

State of Arkansas Nonfarm Payroll Job Summary

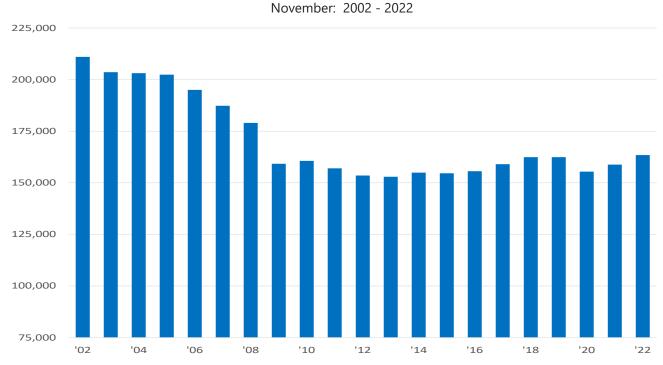

October 2022 - November 2022

Arkansas' nonfarm payroll jobs decreased by 5,400 in November to total 1,329,200. Declines were posted in eight major industry sectors. Jobs in **leisure and hospitality** dropped 2,500. Losses were reported across all subsectors, with jobs in food services down 1,600. **Manufacturing** decreased by 2,100 jobs. Most of the contraction was in durable goods manufacturing (-1,400). Jobs in **professional and business services** declined 1,500. All losses were in administrative and support services (-2,200), a subsector which includes employment agencies. **Construction** is down by 1,000 jobs, an expected seasonal decrease. **Trade, transportation, and utilities** posted the largest monthly gain, up 1,300. Hiring occurred in both transportation-warehousing-utilities (+1,300) and retail trade (+700), as retailers prepare for the holiday shopping season. Jobs in **educational and health services** rose by 1,000, with increases in both health care and social assistance (+600) and educational services (+400).

November 2021 - November 2022

Compared to November 2021, nonfarm payroll jobs in Arkansas are up 18,000. Eight major industry sectors reported growth. Jobs in **manufacturing** rose by 4,600, mostly in nondurable goods manufacturing (+3,100). **Educational and health services** added 4,300 jobs. Hiring occurred in both health care and social assistance (+2,800) and in educational services (+1,500). Jobs in **leisure and hospitality** increased by 3,900, mostly in accommodation and food services (+3,700). Jobs in **trade, transportation, and utilities** rose 3,000. Gains in wholesale trade (+3,100) and transportation-warehousing-utilities (+2,300) were offset by losses in retail trade (-2,400). Notable growth was also posted in **financial activities** (+2,300) and **government** (+1,200). **Construction** (-1,400) and **professional and business services** (-1,000) both posted job declines over the year.

County Labor Force Summary

Between October and November, unemployment rates increased in 55 of Arkansas' 75 counties. Jobless rates declined in ten counties, while remaining stable in ten counties. Rates ranged from a low of 2.1 percent in Benton and Washington counties to a high of 7.0 percent in Phillips County.

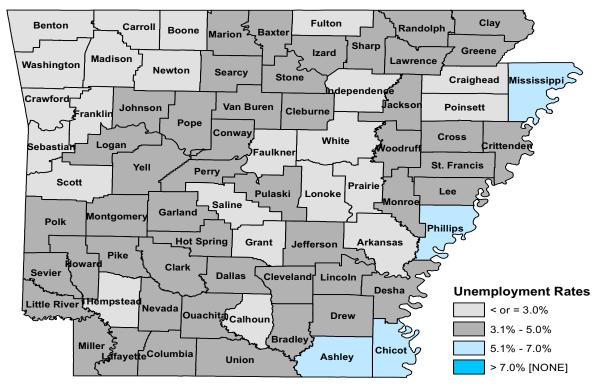

In November, fifty-five counties reported an unemployment rate at or below four percent. That is down slightly from 60 counties at or below four percent last month. Only one county-- Phillips County-- posted a jobless rate at or above seven percent in November.

Compared to November 2021, unemployment rates are up in 72 Arkansas counties. Three counties—Chicot, Miller, and Woodruff—reported slight jobless rate declines over-the-year. The largest annual rate increases occurred in Clay and Greene counties, up one and seven-tenths of a percentage point and two and six-tenths of a percentage point, respectively.
